Edumatica

Empowering Educators To Go Digital

www.edumatica.io

About
Edumatica

Edumatica is an online platform founded with a vision to provide innovative technology-enabled learning solutions to educators. It is the go-to platform created for educators to access the community, content, and tools they need to teach at their best. We help educators use the best education technology for enhanced classroom engagement with an easy-to-use platform that unifies all the aspects of teaching and learning seamlessly.

We look forward to bringing the educators on the platform to use our industry-leading product to improve their accessibility beyond regions and give them exemplary user experience. Now is the time for our gurus to go digital by teaching online 24 X 7 and manage their course, students and classes at the click of a button.

A Next-Generation AI-Based Online Education Platform That Allows Education to Break Its Cocoon of Traditional Methodology and Shake Hands with Modernization

Sanjeev Kumar
Founder Edumatica

(Co-Founder and Former CTO Pine Labs)

About Founder

Sanjeev carries 20+ years of work experience and has been Co-Founder and former CTO of one of the largest unicorn Fin-tech, Pine Labs. He pioneered the digital payment solution acceptance on retail outlets, which is now being used in many countries including India. He holds a B.Tech Degree from IIT Kharagpur. Edumatica platform has been envisioned by Sanjeev to provide Educators with one unified education platform, that provides an online teaching experience similar to offline classes Sanjeev and his team of IITians developed this platform which has all the features that a teacher would require for an effective class.
Why Edumatica?

Edumatica The Best Platform To Teach Online Classes

Online classes are the new normal now! Hence it is very exigent to make the methodologies of online learning very comprehensive and flexible. Since the majority of online classes run on a meeting platform, the teachers are facing a lot of problems. Edumatica is a spot solution for all the problems concerning online classes.

We believe that education is empowering at the learner's end when it provides an opportunity to every learner from anywhere to learn from the pool of its subject matter experts and empower the teachers by giving an end-to-end AI-powered platform for result-driven teaching. We have successfully built the best free learning app and best app to teach online classes as satisfied learners and educators continue to grow manifold. Our eLearning platform has so many features.

# WHAT WE OFFER FOR INSTITUTES

Edumatica brings to you a platform for all institutes to smartly manage multiple teachers across classrooms and generate analytics reports of their esteemed institutes.

Our Offerings

Future-proof Classroom Ecosystem

AI-Powered virtual classrooms give the significant opportunity to transform passive viewers into active participants with interaction in real-time. With Edumatica, the learners and educators get a unique platform that has features to make your virtual classrooms a worthwhile experience.

Edumatica

Other Market players
| Easy To Use | Cloud Storage | Real-Time Data Analytic | Screen Sharing | Cloud Recording |

Hybrid Operating Model

Operate your institute in both offline and online mode with unlimited class recording and live classes.Students can attend live sessions and revisit the recorded sessions as often as they want for the revisions. Always stay in touch with your previous classes (NO LOSSES AT ALL!).

Experience a Distraction-free Learning Environment

The whiteboard is a 'state of the art' facility that allows the teacher to provide access to a particular individual for annotating on the whiteboard without losing his access concurrently keeping the 'host identity' with themselves.

Smart Content Sharing

Students can submit their handwritten/typed work by clicking pictures from their phone. On submission Tutors can put remarks and annotate over the PDF file. All the remarks/annotations and marks/grade will be available to students on their dashboard.

Personalized & Flexible Learning

The curriculum is also beneficial for gifted students, professional athletes and slow learners as the student can decide the pace.

Active Interaction with Tutors

One of the most significant drawbacks of online learning platforms is that students cannot engage with tutors effectively. Edumatica has overcome this disadvantage. There is a question box where the kids can leave any questions for the tutor.

Get your own white-label app with all the features

Assign to Batches

# AI-powered Automated Attendance

Smart Attendance Management, where our AI-driven systems automatically mark attendance as soon as students enter the classroom based on students' total screen time and attention spans. Teachers/students/parents have access to the students' attendance data.

View Attendance Analytics of the Selected Batch

View Attendance Analytics of the Selected Class

Question Bank

If you spend countless hours setting up question papers for your assessments and then a few more hours evaluating them, Edumatica makes your life easy with its automated modules. We have uploaded an extensive question bank on the platform, which we frequently update as well.

Create your question banks (class wise , subject wise and batch wise)

Import your question bank from your computer. Download the template, add data into the template and upload it back.

Assign question banks to a particular batch.

Announcements

Announcements to the students can be send on the e-mail, push notifications on the app and SMS. Announcement history can be seen by students/parents.

Reach Out to Students and Parents

Add Announcements

Review Announcements

Reminder & Alerts

Reminders and Alerts to join the class, pay the fee, missed classes, take the assessment, submit assignments and many more based on the functionality are incorporated.

Mock Tests

Choose from an extensive question bank of more than 2 lakh questions and create Mock tests within minutes! Institute's admin can assign the Mock tests to batches.
Add Admin

The Institution can create an admin profile on Edumatica.

Analytics

Empowers students and parents to identify learning gaps with the help of detailed, personalized reports. Institutions can monitor students' progress and use the data to analyse the pain points and drive focus towards them.

Performance Analytics

Payment Analytics

Assignment Analytics

Attendance Analytics

Payments

Institution can manage fee structure for a particular batch/course and monitor the payment cycle.

Manage invoice, receipts, fee payment, reminders and more

Manage all of your payment packages

Set default payment settings like taxes, payment frequency, default Invoice generation date, penalty fee and more.

Payroll Management

It's time to automate your Institution's payroll tasks with the most efficient, accurate, & convenient Payroll Management System. Manage the entire payroll process from multiple salary plans, taxation to bonus pay- all in one place!

End-to-end Payroll Processing
Maintain Error-free Financial Records

Generate Pay-slips & Reports in Any Currency

Auto-calculation of Leaves & Deductions

Abide Indian and International Payroll Taxes

Cost-efficient & No Third-party Applications Required.

Leave Management

We can understand the agony faced by owners/managers of an educational institution employing many teachers.With our leave management system, you get peace of mind as everything is documented and well in place. There is no other better platform to apply and manage leaves that is why Edumatica brings you an integrated online platform with features never seen before. Our efficient leave management system offers unique features like:

Simple & Streamlined Application Process

Customize Leave Types

Easy Online Tracking

Access Real-time Data Anytime & Anywhere

Consolidate Reports for Year-end Leave Processing

What Our Customers Speak About Us

My Name is Nandita and I take private tuition for school children. I got associated with Edumatica few months ago, I am thoroughly impressed with the immense features that Edunatica is offering. The best feauture which suited my requirement is conducting interactive live classes. Students can solve the questions on the board along with me. Conducting a quiz is super easy with Edumatica. I was struggling with creating multiple choice questions but Edumatica's rich source of questions makes conducting prizes very quick and the results are automatically generated in real time and I can also conduct tests during the class and the results are immediately displayed on the board It's easy to track the students' performance and attendance. And It is one platform that helps tutors across the world create their public profile so that they can reach out to students across the globe.

Nandita, Teacher

"Edumatica is one-stop destination that has helped me get all the aspects of my online teaching sorted. From taking live classes to sharing notes and from taking online tests to sharing the results, I just have my hands on Edumatica as it is efficient as well sufficient in meeting all my demands."

Mr. Jaideep, Topper Classes

I have been using this App for the past two months and I found it very useful for conducting classes especially when almost all our students switched over to Online classes due to Covid Pandemic.

Mr. Jaideep, Topper Classes
"I find Edumatica a very efficient and flexible platform for managing my entire teaching work. I have been using this platform regularly taking live classes, giving homeworks and I didn't even feel the gap of offline classes while teaching online on Edumatica. My experience in online teaching has gone far beyond my expectations. Edumatica is making my classes much more effective with its unified platform encompassing Student management, Batch management, Class Schedules, Online Tests, Homeworks, Announcements, Analytics, Payment Collection and much more. The platform gives me the ease and flexibility I need, and it works out just great!"

Ritu Jeph, Tutor

"Much praise to the team Edumatica for coming up with a wonderful platform that offers better classroom communication. The communication via chat box, discussion boards, and the interactive whiteboard makes it easy for me to interact with my students actively and clarify any doubt about the topic or assignment. In addition to it, the integrated Leadership board on quiz assesses students' attention and concentration span in the class, it also gives them a sense of achievement. As a teacher, I can ensure whether the students got the concepts or not. My online teaching experience with Edumatica has been very rewarding thus far! I would recommend this platform to any tutor who is looking for the best platform to teach online and manage other related aspects of teaching/learning efficiently."

Sonal Khemani, Tutor
